

Ideation Phase

Empathize & Discover

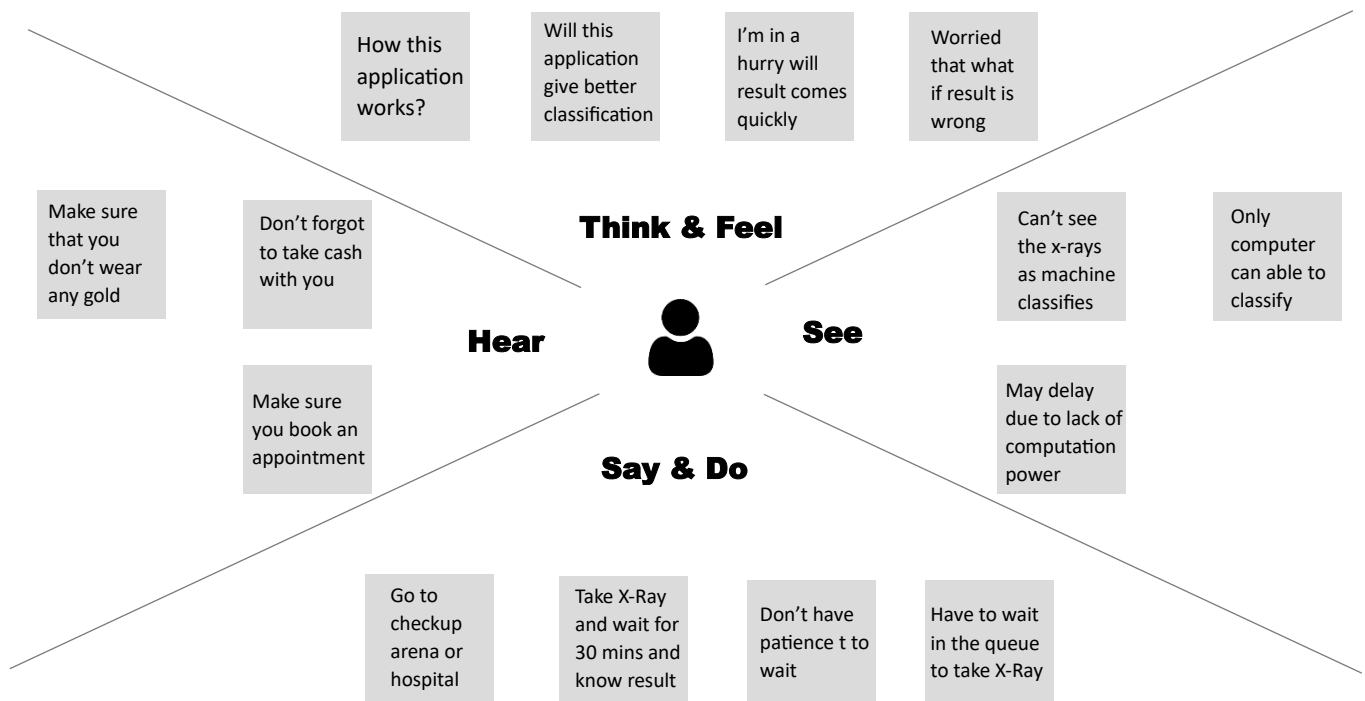

Date	29 April 2023
Team ID	NM2023TMID03654
Project Name	Project - Covid Vision: Advanced COVID-19 Detection from Lung X-Rays with Machine Learning or Deep Learnings
Maximum Marks	

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users. Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Covid Vision: Advanced COVID-19 Detection from Lung X-rays with Machine Learning or Deep Learnings

Pain

Hard to take X-Rays often which may cause disease

Uncomfortable in trusting in AI as it is new

Costlier for diagnosing covid-19 disease

Gain

Good accuracy of the result

Quicker classification and diagnose

No need of waiting for a week to get results so can avoid being in quarantine
